

OBJECTIVE	TARGET	PROGRESS	PLAN STATUS	
			2008-2010	2011-2020
A. Stimulate the enhancement of gardens as habitat for a range of local wildlife.	ongoing	Some progress. The Action plan contains the following resources: <ul style="list-style-type: none"> • 10-point Action Plan for enhancing a garden for wildlife. • Plants for attracting butterflies • Wildlife Gardening Calendar These will be made available as separate items on the Warwickshire Wildlife Trust website.	↑	↑
B. Highlight and protect the overall resource for wildlife provided by private gardens by discouraging building on existing gardens.	ongoing	In progress. Warwickshire County Council considers protected species in planning applications for such sites and would carry out a Biodiversity Impact Assessment if necessary.		
C. Establish electronic systems for recording and monitoring the more widespread and easily identifiable garden animals, e.g. amphibians and hedgehogs.	2016	No progress. Now unnecessary in view of the availability of wildlife cameras to the public.		

Key to status: 2010: ↑ Any improvement ↔ No change ↓ Decline
2020: ↑ Good progress ↑ Some progress ↔ No change ↓ Decline

PROPOSED ACTIONS	BY	REPORTED PROGRESS	ACTION STATUS ↑ ↑ ↔ ↓
PL1. Biodiversity and wildlife habitat to be taken into account in planning proposals, e.g. for the re-development of garden land.	Ongoing	In progress Warwickshire County Council: no policy or general rule to discourage building on gardens but concerns have been raised in the past with a few applications proposing to build in a large mature garden, particularly if such habitat is scarce locally and is thus a good wildlife resource. Any application submitted would have to consider protected species and, depending on the size of the application and the number of new houses proposed, a Biodiversity Impact Assessment might be required (Chris Hill).	↑
RM1. Make the 'Garden Wildlife Survey' form available on-line, and ideally provide with an 'easy –access' facility, to gather	2016	No progress Now unnecessary in view of the on line availability of this resource to the public.	↔

information on garden habitats and wildlife populations.			
RM2. Encourage householders to record garden biodiversity via the 'Garden Wildlife Survey' form or send details to the Local Biological Record Centre.	ongoing	No progress Now unnecessary in view of the on line availability of this resource to the public.	↔
CP1. Actively promote the '10 point plan' making it available on websites.	ongoing	No progress. It will be made available as a separate item on the Warwickshire Wildlife Trust website.	↔
CP2. Actively promote the 'Wildlife Gardening Calendar' by making it available on websites.	ongoing	No progress. It will be made available as a separate item on the Warwickshire Wildlife Trust website.	↔
CP3. Promote wildlife gardening to Gardening Clubs via talks and events.	ongoing	Achieved Butterfly Conservation Warwickshire: gave at least 5 talks to Gardening Clubs in the past few years.	↑
CP4. Hold an annual event with information on wildlife gardening, e.g. wildflower event at Brandon Marsh Visitor Centre.	annual	No recent progress. Warwickshire Wildlife Trust: talks have been given but this event has not been held for 4 years.	↓
CP5. Continue to actively promote participation in the 'Wildlife Friendly Garden Award Scheme'.	ongoing	No progress.	↔
